Subject: DRAFT Technical Summary of the Overall Data Collection, Validation and Review Process

Hi Cindy -

I have attached a very rough draft technical memo which provides a summary of the overall data collection, validation and review process for this project. As noted in my earlier e-mail, we are trying to make the memo user friendly while assuring that it remains technically accurate. You will see where we really need OASQA's input. In particular, please see the Summary of Issues section.

Again, we are requesting comments from QASQA no later than 2 pm on Thursday June 7th. Sorry for the short turn-around - we would like your input before we send this to HQs EU on Friday June 8th,

I will be forwarding the draft executive summary of the data process shortly.

Thanks again - Kelley
